

Tissue Engineering for Industry

3D reconstructed tissue models and their applications
in Biopharmacy, Cosmetics, Food/Health and Chemistry

Biocitech, Romainville Grand-Paris

September 28th, 2021

An industry-oriented scientific conference to discuss advanced research in tissue engineering and 3D reconstructed models for applications in Toxicology, Pharmacology and ADME for Cosmetics, Pharma, Nutrition/Health and Chemical industries.

AUDIENCE

- Industry experts from Cosmetics, Biopharma, Nutrition Medical devices and Chemical industry
- Academic and industry experts in cell culture and tissue engineering
 - Alternatives to animal models
 - 3D skin Human models for dermo-cosmetics
 - Toxicity and Genotoxicity
 - Intestine models
 - Liver models / hepatotoxicity
 - Human airway epithelial models

SILVER SPONSOR

EPISKIN

Committees and Speakers

Eric **ANDRES**, *OROXCELL*
Eléonore **ATTIGNON**, *SERVIER*
Sylvio **BENGIO**, *ADEBIOTECH*
Bruno **BRISSON**, *POIETIS*
Sébastien **CADAU**, *BASF BEAUTY CARE*
Nancy **CLAUDE**, *SERVIER*
Samuel **CONSTANT**, *EPITHELIX*
Alain **DEGUERCY**, *ADBIOL CONSULTING*
Christophe **DINI**, *OROXCELL*
Thibault **HONNEGER**, *NETRI*
Sylvie **KLIEBER**, *SANOFI*
Jean-Claude **LECRON**, *LITEC, Univ.Poitiers*
Francelyne **MARANO**, *FRANCOPA*
Jan **MARKUS**, *MATTEK*
Christian **PELLEVOISIN**, *EPISKIN*
Frank **YATES**, *CEA, SUP'BIOTECH*
