

Local vs. Global Achieving Better Raman Glucose Detection with Simplified Models

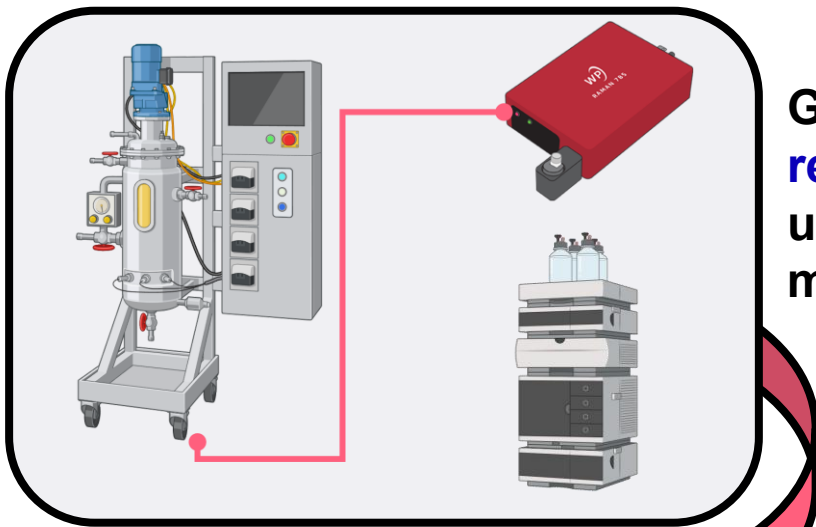

Antoine Borg^{1,2,3*}, Arthur De Clerck¹, Vincent Portaluri¹, Mourad Elhabiri³, Stéphane Le Calvé²

¹ Euroapi, 32 rue de Verdun, Saint Aubin les Elbeuf

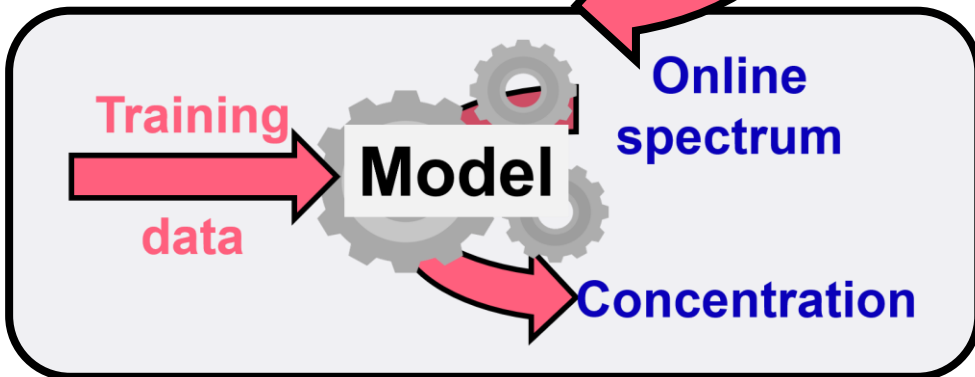

² Institut de Chimie et Physicochimie pour l'Énergie, l'Environnement et la Santé (ICPEES), 25 rue Becquerel, Strasbourg, UMR 7515

³ Laboratoire d'Innovation Moléculaire et Applications (LIMA), 25 rue Becquerel, Strasbourg, UMR 7042

Raman monitoring of fermentation: Local vs Global euROAPI

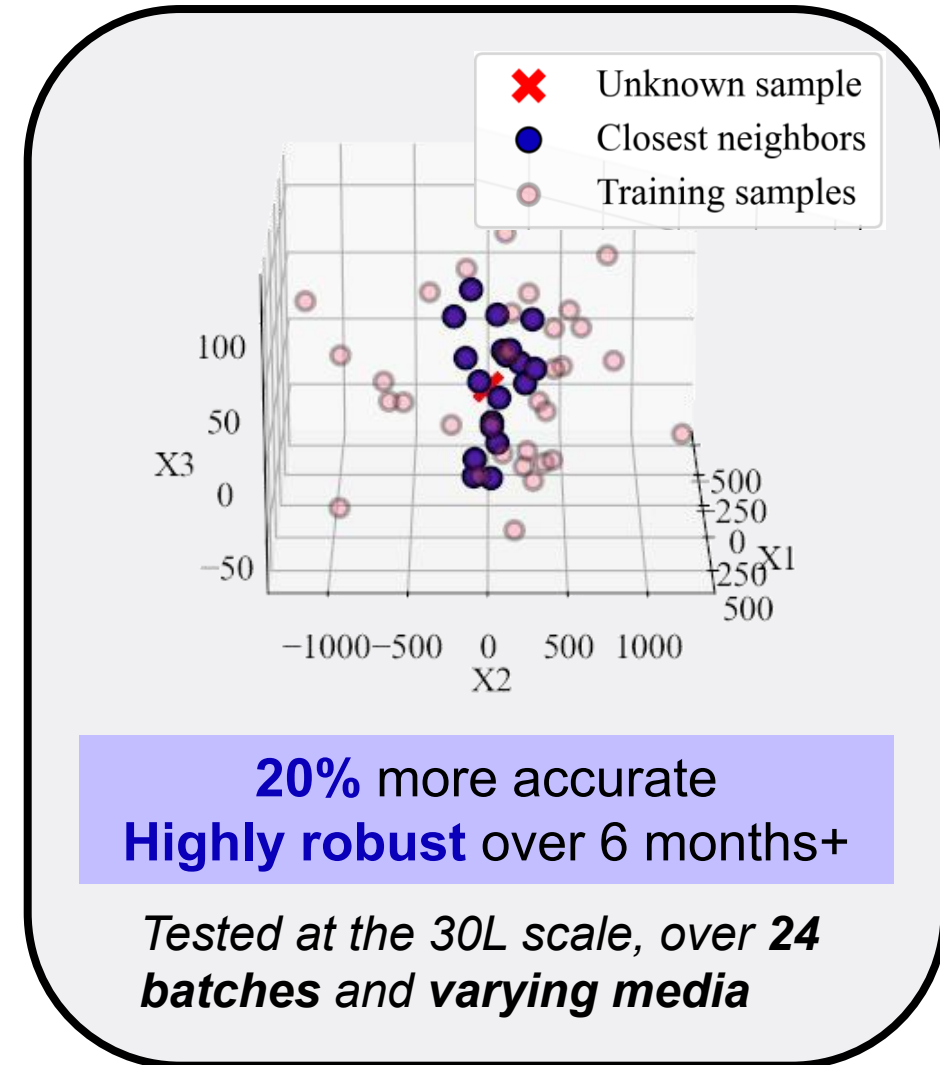

Generate
reference data
using **offline**
methods

And **train** a **predictive model**
on **all** the references

Or instead, use only the
most relevant data to
train one model **for each**
new sample
