line solution

New Food scale-up journey with Tetra Pak

New Food Technology Development Center

From **fermented-derived ingredient** to **final product formulation**, co-create outstanding food products with Tetra Pak

- Create hybrid products that **combine functionalities of both traditional and fermented-derived** food ingredients.
- Benefit from our **continuous investment in innovation**, novel technologies and the latest research in food technology.
- Extensive market and consumer insights **to support your innovation journey**.

Technologies and line solutions

The one-stop shop supplier to an engineered solution as per your bioprocess needs

Tetra Pak® Bioreactors portfolio

From small to large scale

- Scalability
- Operation access
- Built to order
- Easy operation
- Customizable units

We're here to make food safe and available. It's why we provide advanced food production systems. In collaboration with our customers and suppliers, driven by more than 24,000 dedicated employees worldwide, we protect food sustainably every day for hundreds of millions of people in more than 160 countries.

Because we're here to fulfil a purpose:

**We commit to making food safe and available, everywhere, and we promise to protect what's good:
food, people and the planet.**
