

I&L Biosystems

Making science real across Europe

European-wide solutions provider of best-in-class and innovative laboratory products

Troisdorf, DE
I&L Biosystems Campus

Waalwijk, NL
I&L Biosystems Logistics Hub

11 locations in Europe

34 years of experience

80 people at your service

Providing solutions from biotech to food safety

Biotechnology

- A comprehensive portfolio of advanced **bioprocessing solutions**
- Supporting R&D and industrial applications at every stage
- Helping you accelerate discovery and innovation

Cell Biology

- A diverse range of innovative solutions for **cellular science and drug screening**
- Obtain insights into cellular structures, functions, and interactions
- Enabling progress from basic research to applied sciences

Microbiology, food & beverage

- A robust portfolio of microbiology solutions
- Ensuring safety and quality across industries, from food to pharmaceuticals
- Trusted tools for monitoring, managing, and maintaining standards

Our extensive portfolio

For over 30 years, we have been the go-to partner for high-end lab solutions for customers in biotechnology, cell biology, and microbiology.

Aber Instruments

Cell Microsystems

Constant Systems Ltd.

FLOWNAMICS

Flownamics® Inc.

GEA

INVENTIA
LIFE SCIENCE

Inventia Life Science

IUL Instruments S.A.

nanoAnalytics GmbH

NanoCollect®
Biomedical Inc.

NanoEntek

NEOGEN Europe

Parker Hannifin

Protein BioSolutions

Quinxell Technologies
Pte Ltd

Renishaw

Roche CustomBiotech

Steroglass

The Baker Company

The Cultivated B

Providing solutions for the fermentation community

AUXO V® Benchtop Bioreactors.
Configure your system specific to your application.

The Cultivated B

Cedex Bio® process analysers.
Process monitoring of mammalian, bacterial and yeast cultures.

Roche Custom Biotech

High-pressure cell homogenisers
Consistent and reliable cell disruption at every scale.

Constant Systems

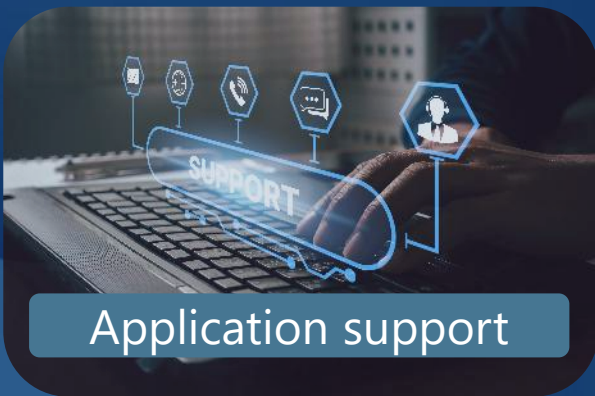

Serving Europe with a personal touch

We distinguish ourselves by our scientific expertise, personal touch, and service level with a local approach.

Technical service

- Full-service partner offering end-to-end support
- Customer-oriented assistance, both remote and on-site
- Europe-wide coverage to meet clients wherever they are
- Certified technical service team, trained regularly by manufacturers
- Responsible for maintenance, repair, and equipment qualification

Application support

- Hands-on support to help you maximise equipment performance
- Assistance with: Troubleshooting, User training, Workflow optimization, Product advice
- Focused on knowledge transfer and practical solutions
- Ensuring you can use your devices confidently and efficiently
